THE PARADOX

Kerala has the talent, the capital, and the market — but *no industry*.

TALENT LEAVES

2.5L

Student emigrants from Kerala in 2023 — nearly *double* 2018. NIFT Kannur places 60–70% of graduates entirely outside the state.

— KERALA MIGRATION SURVEY 2023

CAPITAL SITS IDLE

₹3 LCr

NRI deposits parked in Kerala banks (Mar 2025). FY24 remittances of US\$24B make Kerala India's #2 remittance state — yet MSMEs make up *38% of state NPAs*.

— SLBC KERALA / RBI

MARKET IS IMPORTED

~85%

Of apparel sold in Kerala is sourced from Tiruppur, Surat, Bengaluru and Bangladesh. Outside KiteX, the state has no cluster of its own.

OUR APPROACH

A hub-and-spoke industry, grown *at home.*

A central design and finishing hub in Pathanapuram, fed by neighbourhood production units run with Kudumbashree women – every commute under 5 km. Skill flows through our in-house academy. The whole loop sits inside Kerala.

HUB	SPOKES (Y3)	MAX COMMUTE
1 · Pathanapuram	12–15 units	≤ 5 km

THREE INTERLOCKING LINES

One company, three *currents*.

– 01 / MAKE

Raomi *Production*

A 20-machine starter unit in Pathanapuram producing school uniforms, institutional bulk, and own-label essentials. Built to nest into a hub-and-spoke as we add units across Kollam district.

● SCHOOL UNIFORMS

● OEM

● CUT-MAKE-TRIM

– 02 / KIDSWEAR

NEOTOTS

Our in-house kidswear label — “made for moments of joy.” Launches into the world's #1 infant-wear export segment, where Kerala neighbour Kitex is already global #2 (and proves the demand sits on our doorstep).

● INFANT & TODDLER

● ORGANIC COTTON

● D2C + EXPORT

– 03 / BRAND

Raomi *Atelier*

A small premium label of naturally-dyed, woven everyday wear — designed in Kerala, sold D2C at raomi.in. The brand IP that proves our production can serve premium markets, not just bulk tenders.

● NATURAL DYES

● WOVEN

● GOTS-ROUTE

MARKET OPPORTUNITY

WHY NOW

Four currents, one *moment*.

Global supply chains are unbundling, a deep-water port just opened off Kerala's coast, and a generation of Malayali design talent is being trained to leave. We're building for the seven years that follow.

— 01 / GEOGRAPHY

Vizhinjam is *open*.

India's first deep-water transshipment port. 24m natural draft, 10nm from the east–west shipping lane. 1M TEUs in 9 months — 40% above target.

— 03 / DISRUPTION

Bangladesh is *wobbling*.

258 RMG factories closed in 2024–25; 100,000+ jobs lost. LDC graduation in Nov 2026 removes EU duty-free access.

— 02 / GEOPOLITICS

The *China-plus-one* rotation.

China's apparel share fell 54% → 29.6% (2010–24). India's apparel exports to the US grew 35% in 2024 alone.

— 04 / TALENT

Designers are *leaving*.

2.5 lakh Kerala students emigrated in 2023 — double 2018. NIFT Kannur places almost entirely outside the state.

COMPETITION · POSITIONING

Hubs that scale, or models that *belong*.
